

BROWNIE

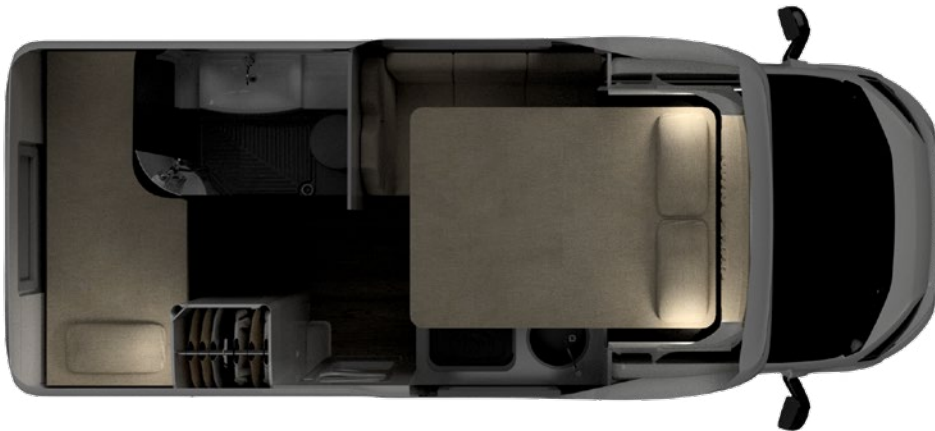

WINGAMM

THE NEW DIMENSION OF TRAVELLING

THE FREEDOM AND SPACE THAT SPORTY TRAVELERS NEED

Daytime layout

Nighttime layout

Only Wingamm's mastery in the exploitation of interior spaces made it possible to create this semi-integrated model that has no comparison on the market.

The fiberglass monocoque body, with a new decisive, muscular and sporty line, is combined with the Fiat Ducato engine with very light Al-Ko low frame, with independent wheel suspension, wide-track and torsion bar longitudinal axle with special double-acting shock absorbers .

Low center of gravity, very small overhang and breathtaking performance for traveling in total safety, even in the city center, and parking anywhere.

Inside, in front of the dinette is the kitchen block with superbly organized spaces, to always have everything at hand. The toilet has widths and finishes unmatched for the segment. **The perfect balance between elegance and functionality.**

WINGAMM BROWNIE 5.8 GL

TECHNICAL FEATURES

Sleeps **4 people**

Length **5.890 mm**

Rear overhang **1.300 mm**

Wheelbase **3.643 mm**

Travel seats **4 people**

FIAT DUCATO EURO 6D Temp

Total Mass **3.500 Kg**

Turning circle **13.20**

FEATURES

Brownie features two completely separate sleeping areas: the front drop-down bed and the rear bunk beds. The walls of the rear area are made of fiberglass-double shell, heated with our special X-Trafit system; maximum thermal comfort for an incomparable rest.

01 / REAR GARAGE

If you are travelling in two or three and the lower rear bed is not needed, the bunk beds, with a simple gesture, turn into a large garage compartment for the transport of bikes, scooters, camping equipment and everything you need for holiday en plein air.

02 / KITCHEN BLOCK

The entrance door is central; the kitchen unit extends immediately to the right up to the passenger seat, essential and functional, it is complete with a 2-burner hob with flush-top lid and 96-liter trivalent refrigerator.

03 / BED UP-AND-OVER

The wingamm patented double longitudinal fold-down bed is quick and easy to use and comes complete with wooden slats and memory-foam mattress. The side wall units remain usable also from the drop-down bed.

04 / TOILET COMPARTMENT

The centrally located toilet compartment is made of solid fiberglass and HPL laminate in the bright Toucher reference. The sink console in solid ivory-colored fiberglass amazes for its size. The shower corner is separated with shower rod and independent single-lever mixer. Ceramic toilet.

OPT / GRAND-GARAGE

The Grand-Garage variant significantly modifies the rear area of Brownie where in the standard version, we have bunk beds. The Grand-Garage provides for the elimination of the bunk beds and the closure of the rear area, which becomes a large garage space from floor to ceiling, all made of heated X-Trafit System fiberglass.

It is equipped with a series of hanging cabinets both on the side walls above the external doors and on the rear wall above the window. A door at eye level gives the possibility to access the garage compartment from the living area. A truly sporty version of Brownie aimed at the most active tourists!

OPT / DINETTE "L"

Brownie is offered as standard with a classic double dinette and a central table attached to the left wall of the vehicle. On request, Brownie can be made with an "L" shaped dinette to give more space to the living area. Instead of the two sofas, facing each other, an "L" shaped dinette is installed with a refined rectangular table complete with translator. For this variant, swiveling cab seats are supplied as standard to complete the dinette.

WHY CHOOSE WINGAMM

O1 // DRIVE

Our vehicles are a concentrate of design, practicality and driving pleasure: a real second home that accompanies you where other campers don't dare! An agile and silent driving experience by limiting vibrations and pitching to the maximum.

Having tried a Wingamm, there is no turning back: the silence, the comfortable climate, the welcoming environment, the pleasure of driving, the convenience of getting anywhere.

O2 // COMFORT

03 / SAFETY AND SOLIDITY

Wingamm motorhomes are unique in terms of safety and longevity thanks to the distinctive fiberglass monocoque that guarantees thermal comfort, silence, impermeability and robustness unmatched compared to traditional paneled motorhomes.

We design and manufacture all custom-made furnishings for each individual model, optimizing liveability and functionality to the maximum. Continuous research and investment in ergonomic and functional solutions in order to ensure maximum habitability in more compact and manageable campers than the competition.

04 / DESIGN AND ERGONOMICS

05 / VALUE OVER TIME

The official Eurotax price lists show how the Wingamm second hand is highly sought after and has the best performance in maintaining value over the years compared to the competition. In fact, the first models produced more than 40 years ago are still in circulation and, thanks to the fiberglass body and the quality of the product, they still have perfectly comfortable and functional cockpits.

In the photo an Oasi 610 from 1985, still in circulation and perfectly preserved with all its original components, and therefore awarded the gold plate of the Automoto Club Storico Italiano.
